

Location: Malacky  
Contract Value: 1.33 mil. EUR  
Completion: 07/2011

An existing producing facility was enlarged by addition of two new build manufacturing plants with total area of 3 000sq.m. Both plants were connected to the existing buildings. The works also included construction of new roads and complex renovation of the compound.

It was a design and build project and we delivered a complex project documentation, all required legal permissions and construction, commissioning and hand over of the facility.
