

Refurbishment of the Slovak Museum of Speleology **HORNEX**

Location: Liptovský Mikuláš
Contract Value: 5.26 mil. EUR
Completion: 10/2013

We have delivered a complex refurbishment and extension of the museum building, which is a listed structure. This project aims to make the museum more attractive for general public by improving and extending the current exhibition.

The project was designed that the listed building and its characteristics will be protected by the adaptation and that the museum will remain to be one of the frequently visited historic landmarks of the town centre.
