

Location: Bratislava
Contract Value: -
Completion: 03/2021

Our company constructed a new residential project at Jantarova Street in the city district of Jarovce.

The development consists from two apartment blocks where there are 39 apartments and 104 parking places. There is a set of four storey residential buildings and an underground floor that will be used for parking. Among the buildings and in the surrounding area will be created greenery with multiple trees and a children's playground.
