

Location: Bratislava
Contract Value: -
Completion: 03/2021

Our company constructed a new residential project at Jantarová Street in the city district of Jarovce.

The development consists from two apartment blocks where there are 39 apartments and 104 parking places. There is a set of 4 storey residential buildings and an underground floor that will be used for parking. Among the buildings and in the surrounding area will be created greenery with multiple trees and a children's playground.
